
Animated Barnacle Documentation

Release 0.1.0-dev

Charles Tapley Hoyt

February 15, 2017

Contents:

1 Overview	1
2 Indices and tables	3

Overview

This page is an overview of Animated-Barnacle. It uses some of the cool automethods Sphinx has:

class `animated_barnacle.reanimate.Reanimator` (*corpse*, *alive=False*)

This class represents lifeless bodies that can be reanimated

Parameters

- **corpse** (*str*) – The name of the corpse
- **alive** (*bool*) – Is the corpse alive? Defaults to False.

Indices and tables

- `genindex`
- `modindex`
- `search`

R

Reanimator (class in `animated_barnacle.reanimate`), 1
