
CANard Documentation

Release 0.1

Eric Evenchick, Ethan Zonca, Matthew Reed

Mar 23, 2017

Contents

1	Submodules	3
1.1	canard.bus module	3
1.2	canard.can module	3
1.3	canard.log module	3
2	Subpackages	5
2.1	canard.hw package	5
2.2	canard.proto package	5
2.3	canard.test package	6
2.4	canard.utils package	6
3	Module contents	7

CANard is a library for dealing with Controller Area Network (CAN) data from Python.

CHAPTER 1

Submodules

canard.bus module

canard.can module

canard.log module

canard.hw package

Submodules

canard.hw.cantact module

canard.hw.logplayer module

canard.hw.loopback module

canard.hw.peak module

canard.hw.socketcan module

Module contents

canard.proto package

Submodules

canard.proto.isotp module

canard.proto.obdii module

canard.proto.uds module

Module contents

canard.test package

Submodules

canard.test.can_test module

Module contents

canard.utils package

Submodules

canard.utils.queue module

Module contents

CHAPTER 3
