Release 0.0.1

Matt McCarty

Mar 17, 2017

1	Supported Types	3
1.1	Boolean	4
1.2	Char	4
1.3	Constant	4
1.4	Far	4
1.5	Float	4
1.6	Hash	4
1.7	Inline	4
1.8	Integer	4
1.9	Near	4
1.10	No Return	4
1.11	Null	4
1.12	Restrict	4
1.13	String	4
1.14	Void	4

CMOD supports various types from both Linux specific and Windows specific libraries and additionally includes newer types that are only available in recent versions of the C standard. Since CMOD's goal is to allow developers to only include what they need, custom types that help developers in day-to-day operations have also been added.

The [types library](#) contains the definitions for all supported types.

CHAPTER 1

Supported Types

Boolean

Char

Constant

Far

Float

Hash

Inline

Integer

Near

No Return

Null

Restrict

String

Void
