# **Sportbot Documentation**

*Release 0.1*

**Frogbots**

July 13, 2016

<b>1</b>	<b>Getting Started</b>	<b>3</b>
<b>2</b>	<b>Commands</b>	<b>5</b>
<b>3</b>	<b>Bot</b>	<b>7</b>

**Sportbot** provides live scores and fixtures of the day for all American major leagues, European football leagues and tennis

You can either use commands or invite the bot to your Slack team.

Have fun with Sportbot!

---

## Getting Started

---

To start using **Sporbot**, you need to install it using the Slack button on <https://frobots.io/>

**Sportbot** is listed as an application on the official Slack app directory, you can find it on <https://slack.com/apps/A0U088YCR-sportbot>

---

# Commands

---

**!NEW!** Sportbot supports live scores for tennis. Check it out with `/score tennis!`

It supports American major leagues:

- **NBA** `/score nba`
- **NFL** `/score nfl`
- **NHL** `/score nhl`
- **MLB** `/score mlb`

It also supports European football leagues `/score foot:`

- **Champions League**
- England Premier League and League One
- France Ligue 1 and Ligue 2
- Germany Bundesliga and Bundesliga 2
- Italy Serie A
- Netherlands Eredivisie
- Portugal Primeira Liga
- Spain La Liga and Segunda Division

---

### Bot

---

**!BETA!** Sportbot is shipped with a bot. Invite **@sportbot** to your channel and you will receive live updates for your games.

**@sportbot** is also able to understand natural language and answer your requests about sports. It has currently less understanding capabilities than a 2-years old but is learning quickly.
