Free Software Foundation

May 25, 2017

Contents

1	User Documentation	3
2	Developer Documentation	5
3	Production Documentation	7

The Mailman home page is <http://www.list.org>, and there is a community driven wiki at <http://wiki.list.org>.

Mailman 3.1 was released on May 25, 2017. The Mailman Suite consists of 5 individual projects Below are links to documentation for each of the projects.

Those packages are copyrighted by the [Free Software Foundation](#) and distributed under the terms of the [GNU General Public License \(GPL\) version 3](#) or later.

- [Mailman Core](#) - the mailing list manager core (required)
- [Postorius](#) - the administrative web user interface
- [MailmanClient](#) - the official REST API Python bindings
- [HyperKitty](#) - the web archiver
- [HyperKitty Mailman plugin](#) - archiver plugin for Core

CHAPTER 1

User Documentation

Documentation for Mailman 3 list subscribers can be found in the GNU Mailman 3.1 - List Member Manual.

Documentation for Mailman 3 List Owners and Site Administrators is not yet complete.

CHAPTER 2

Developer Documentation

There is also a guide for setting up the entire Mailman suite for development.

CHAPTER 3

Production Documentation

The documentation for setting up Mailman suite for production is not yet complete. Contributions welcome!
