
Guild AI

Release

Dec 05, 2017

Contents

Model management for TensorFlow

Guild AI is a toolset for managing and training TensorFlow models. It's in active development and documentation is limited at this time.

Refer to [Guild AI's GitHub project](#) for the latest updates.

If you're interested in seeing Guild in action, read through the project's [User acceptance test](#), which demonstrates working functionality.

If you have any questions about the project, please [open an issue on GitHub](#).
