START HERE

1.1 Get Started

1.1.1 Install `readyregex`

`readyregex` requires: Python 3.7+.

1. (Pip) Run the following command in your command line:

```
pip install -U readyregex
```

2. (Conda) Run the following command in your conda environment:

```
conda install readyregex
```

1.1.2 Import `readyregex`

```
from readyregex import *  
phone_number = PhoneNumber()  
print(phone_number.match("904 123 4567"))
```

1.1.3 Browse Tons of Out-Of-The-Box Patterns

See this list.

1.1.4 Create Your Own Patterns (Or Tweak Existing Ones)

See pattern customization or patterns from scratch.
